Dimensions in mm; Packages: Single items

FIELDS OF APPLICATION:
Domestic appliances and equipment for professional use, such as: carpet beaters, electric brushes, coffee grinders, blenders, milk shakes, cereal grinders, gardening and other pumps, bench tools, etc.

CONSTRUCTION CHARACTERISTICS:
- Notched manifolds with or without reinforcing rings, depending on the power and field of application.
- Standard execution with two ball bearings.
- By request motors with different power and rpm can be made, for all the models listed above.
- Insulation class “I”.
- Temperature class "B", by request "F.

TECHNICAL CHARACTERISTICS:
Motor 230V 50Hz.
Shaft Ø 10 mm x 32 mm long.
Thread: 8 MA
